**What is GNO? And what you can expect:** GNO is a general orientation for all nursing staff new to UC San Diego Health. During this orientation, you will have the chance to learn about the abundance of opportunities and benefits available to you as new staff.

You will be greeted by several of our UC San Diego Health leaders including, your nursing onboarding team, Jodi Traver, Laura Rossi and Megan Londerholm. The three leaders have a combined near 40 years of expertise in supporting nurses with everything from precepting, to mentoring and recognition and everything in-between including life-long learning.

In addition, you will have opportunity to hear from our beloved precepting program manager, Heather Abraham, our Quality department colleagues, and others!

**Should you choose in-person or virtual?** It depends on what works best for you. Attending either satisfy the requirement. Virtual events will be hosted by Zoom. **NOTE:** If you opt for Zoom, you must have a functioning camera and ability to be on video.

We look forward to meeting you,

Your UC San Diego Health GNO Team
